

Bulletin # 2521 - 1

2/5/2021

US Legend Cars International is now offering a new (optional) battery for use in the Bandolero Car and the Legend Car. This battery (pictured below) will be identified with the US Legend Cars International logo and the INEX logo. It weighs 2.5 lbs. and has a much longer battery life than standard car batteries.

This does not “open the door” for other smaller or light weight batteries. All other batteries must meet the guidelines set for batteries (specific to Legend Cars or Bandolero Cars) as shown in the current INEX rulebook.

This new battery is considered legal as delivered by US Legend Cars International.

Thank you,

Scott Reinhardt (INEX General Manager)
